To Whom This May Concern:

Good day!

.

It is my absolute pleasure to recommend Mrs. Esther G. Catapusan for the position of teacher in your school. During the years of our acquaintance, being under my supervisions and directions, she has shown due diligence towards his work, having an excellent capacity to quickly grasp new theories and application and continuously improves and refines her performance in terms of knowledge, skills and attitudes of a professional teacher in mathematics.

Dedication, empathy and competence are some of the most innate characteristics she has that I believe are very fundamental and valuable assets a professional teacher must possess. Other than being dedicated, one quality I was able to witness from her is her empathetic approach in teaching. With the advent of modular learning, some of her students are not able to accomplish some tasks due to certain circumstances may it be transportation difficulties, lack of sufficient understanding on the subject matter and many more. She shows his empathetic approach by personally going to her students' houses to collect some of the modules if they have transportation problems and in terms of those students having difficulty in comprehending some lessons, she does entertain them through Facebook messenger or calls to address their problems. She also made remediation and interventions to ensure that none of her learners shall be left behind.

For background purposes, she has taught Mathematics subjects in the junior high school of grade 9 for 7 years now. She has manifested her unwavering dedication to her field by constantly thinking of innovative methods of delivering effective education to her students. With that being said, she is so dedicated to the point that she upgrades her expertise by purposely attending seminars and training to improve content knowledge and pedagogies in teaching Mathematics. She is one of the coaches for the Metrobank-MTAP in the year 2016 - 2018.

Without a doubt, I would proudly attest that Mrs.Catapusan has shown profound competence in her field for the past seven years. I have personally witnessed her great qualities in communicating and active listening, flexibility, adaptability and collaboration. Her ability to remain unflustered during frenzied periods such as tight deadlines and evaluation. These qualities are the hallmarks of being a professional teacher and Mrs.Catapusan has exemplified all of these authentically.

Mrs. Catapusan is a great asset in our organization for she embodies the characteristics of a professional teacher. Personally speaking, a professional teacher is not just intelligent and smart. What makes her stand out among the rest is her altruism in approaching her teaching profession. Though most teachers would put the welfare of the students at a priority, but then she has exceeded our expectations and even went beyond what her obligations and responsibilities are just for the sake of making it certain that the welfare of her students are at a prime concern.

Thank you for considering Mrs. Catapusan's application as a teacher in your school. I guarantee of her being a great asset to your reputable institution.

Sincerely,

MIRALUNA V. ALBINA, Ph. D.
